# UNICITY HAWAIIAN NONI™

Unicity's Hawaiian Noni has been formulated to better promote overall metabolic health, specifically immune and digestive health, through increased support of the microbiome.

The microbiome refers to the 10,000 species of good bacteria living in the gut. These bacteria are essential for maintaining metabolic health. Having a gut full of beneficial bacteria is like surrounding your cells with good neighbors. In order to encourage the growth of these healthy bacteria, it is important to provide them with proper food source like prebiotics. Our Hawaiian Noni now includes fructooligosaccharides (FOS), a prebiotic that encourages the growth of good bacteria. This new formulation also boasts a significant reduction in sugar and improved glycemic value.

With FOS, noni extract, and aloe powder, our new Hawaiian Noni product provides improved support to both your digestive and immune systems.

## SUGGESTED USE

Take 1 packet once daily with 5-7 oz. of water.

Mix or shake well as fructoligo saccharides can take time to dissolve in water.

Do not take while on blood thinning medication without consulting a physician. Not for use by pregnant or lactating women.

### **BENEFITS**

Supports immune health Helps to regulate immune functions

Helps maintain regulate digestive function

Promotes gut and colon health Encourages healthy cells

#### **AUDIENCE**

Primary Target: Individuals looks for a supplement to encourage immune health.

Secondary Target: People wanting to support the body's digestive system.
